They had struggled to log onto the firms website in order to make the payment as neither the cash or card option on the machine were working. They appealed but lost that appeal as the camera had recorded him entering and leaving the car park in excess of that time.

### **73c Speeding**

She promised to investigate speeding concerns at Brigham Road and Lorton Road.

The CRASH Group would consider additional locations to site a pole for our speed indication device.

Our solicitor has confirmed that we can only use the gardens for the purpose it was acquired i.e. recreation and that we would be acting unlawfully if we granted a lease which might restrict access to the general public for recreation.

Resolved – That his advice be taken.

The UK's peatlands store three times as much carbon as its forests. However the vast majority are in a degraded state and are emitting carbon dioxide which drives the climate crisis.

In May, the Department for Business, Energy, and Industrial Strategy launched the Together For Our Planet : Business Climate Change Leaders campaign, a new drive to encourage small and micro businesses to commit to cutting their greenhouse gas emissions in half by 2030 and to net zero by 2050 or sooner.

The UK will host the 26<sup>th</sup> UN Climate Change Conference of the Parties (COP26), at the Scottish Event Campus in Glasgow on 31 October – 12 November 2021.

The climate talks will bring together heads of state, climate experts and campaigners to agree coordinated action to tackle climate change.

Businesses who commit by signing up to the SME Climate Commitment will be recognized by the United Nations Race to Zero Campaign. Their mission will be to secure global net zero by mid-century and keep 1.5 degrees within reach, adapt to protect communities and natural habitats, mobilise finance, and working together to deliver.

## Healthy Start Vitamin Scheme in Cumbria - Pilot

Healthy Start is a UK wide government scheme to increase the health of low income pregnant women, and families with young children on certain benefits and tax credits. Women who are pregnant or parents who have a child under four years old may be entitled to the Healthy Start vouchers and vitamins dependant on means testing.

### Healthy Start Vouchers

This currently stands at £4.25 for pregnant women, £8.50 for birth to 1 year old and £4.25 from 1 year old to 4 years.

The vouchers can be spent on:

- plain cow's milk – whole, semi-skimmed or skimmed. It can be pasteurised, sterilised, long life or UHT
- plain fresh or frozen fruit and veg (fruit and vegetables with no added ingredients), whole or chopped, packaged or loose
- fresh, dried, and tinned pulses
- infant formula milk that says it can be used from birth and is based on cow's milk.

### Healthy Start vitamins

Women and children getting Healthy Start food vouchers also get vitamin coupons to swap for free Healthy Start vitamins. Healthy Start vitamins are specifically designed for pregnant and breastfeeding women and growing children.

Every 4 weeks beneficiaries are sent coupons to be exchanged, free of charge, for Healthy Start vitamins. There are two types of Healthy Start vitamins, and beneficiaries will be sent the appropriate coupon:

- Healthy Start vitamins for women (containing folic acid, vitamins C and D) - for pregnant women and women with a baby under 1 year old
- Healthy Start vitamin drops for children (containing vitamins A, C and D) – for children aged 6 months to 4 years.

Regulations were also amended to ensure that the duty on a Local Authority to provide Healthy Start vitamins is a function for which the Director of Public Health is responsible.

### Cumbria challenges:

Availability of Healthy Start vitamins is currently inconsistent and largely down to individual Health Visitors carrying supplies and handing them out. This is not always in exchange for the voucher meaning the purchasing budget stands the cost of providing the vitamins. The vitamins are ordered and reimbursement paperwork administered by locality teams.

Retailers that sell the Healthy Start Vitamins are non-existent for pregnant mums.

Distribution across the County has been a challenge due to geography – one size does not meet all!

Vitamins are not available by any other means due to ordering restrictions of NHS supplies.

## Current Uptake data by district & Region 9/12/19 – 5/1/20

**NB** The only data available is for those who actually receive the complete healthy start scheme vouchers. There is no data that shows how many food & milk vouchers or vitamin vouchers are redeemed.

**Eligible** – those claimants showing as eligible to claim for Healthy Start i.e. are in receipt of specified benefits.

**Received** – those claimants that are confirmed as having a validated application form/claim and therefore vouchers have been issued to them.

		Eligible	Received	%
Allerdale	North West	618	297	48%
Barrow-in-Furness	North West	620	350	56%
Carlisle	North West	767	406	53%
Copeland	North West	564	266	47%
Eden	North West	156	72	46%
South Lakeland	North West	235	93	40%

Table 1 Cumbria district Healthy Start uptake data <https://www.healthystart.nhs.uk/healthy-start-uptake-data/>

## Future national developments for Healthy Start Scheme

Nationally there are proposals to move the scheme to a paperless digital scheme. This is currently being piloted in a number of areas and hopefully will ~~be at the Beta stage of the design and will not~~ be rolled out nationally in the foreseeable future. The hope is that by digitalising the process it will be more streamlined.

### Proposal

After exploring several options and looking at learning from other areas, we are proposing that we move to universal provision of the vitamin portion of the scheme meaning that all pregnant women and children from birth – 4 years receive free vitamins. This will remove the need for a voucher exchange, however Midwifery and Health Visiting colleagues would still complete Healthy Start applications with families and collect vouchers where possible.

**For mums the tablets would be distributed at booking, 16 week check and new birth visit. Signposted to a local Library branch for further supplies every 8 weeks.**

For babies the drops will be via Health Visitor distribution at 2 of the mandated visits: Primary and 6-8 weeks.

Reminder at routine checks and at following contacts antenatal, 3 to 4 months, 12 months and 2 years.

**Availability between these contacts for both mum and child vitamins would be via Libraries**

Hi Alan,

I took the liberty of obtaining a quote for a replacement SID, things have moved on from when we got the original unit with them now offering solar-powered units that don't require bringing in for a recharge.

This is to give you some budget figure if you're approaching people to include this in their Road Safety Budget. The unit has been very useful in providing data as to the local traffic situations and we have provided a service to other areas such as Ennerdale, Embleton and Dovenby to give them some idea of speeding and traffic volume problems in their area.

I hope funding can be obtained because even though the Rural Safety Group no longer meets it is a useful reminder for motorists of speed on the approaches to Cockermouth, and the historical data as to traffic volumes helps inform when further expansion of the town is being considered.

Regards

Peter Wilkinson
